salty joe's where fish go to die. salty fish and chips goldstream. salty fish good. salty goldfish. salty fish go

Come back, don't be

The English is bad but the gameplay's pleasant and easy. Well worth the 79p price tag. Apparently it's something from China but if you want to play as a fish with a sword collecting salt then it's still fun.. Another Montaro runner wannabe, but seemingly this game has better graphics, interface, smoother control and transitionings.

A little harder than Montaro, since more slashing is involved as ratpacks, stationary obstructing and pouncing cat needs more precision jumping due to tight collision space. Most lethal are the spear fishes that hops off the shelves.

There is a bug in the game, pausing game with Esc during transition of zone, stops change, stucks the player with the resumed counter, the ongoing game can no longer be played other than exit to main menu.

Playable for mere price.. Im a Salty Fish,i have a Dream,just do it!. I have waited so long for this game and it's finally here\uff01Need to spend more time collecting salt before i can come up with any actual review, just here to say the fish is really cute with their little katana, and it's fun to begin with. Very addicting definitely worth more than 1 dollar!. Unlocked all achievements within an hour. I'm a truly salty fish :P. Salty Fish Go! is... WORTH A DOLLAR!

[Salty Fish Go! is an endless runner in which you play as a fish with a katana, progressing through levels cutting skirts off the ladies and avoiding cats. It's a nice little experience for you to enjoy for just a buck.. Pretty funny game.](#)

Come back, don't be

The English is bad but the gameplay's pleasant and easy. Well worth the 79p price tag. Apparently it's something from China but if you want to play as a fish with a sword collecting salt then it's still fun.. El juego cumple con lo que promete, bastante entretenido pero a la vez corto y repetitivo, pero nada mas. 7.5/10. Very addicting definitely worth more than 1 dollar!. Just a fun little game to pass time.. Honestly, this game is the best dollar I've ever spent for a game. This beautiful piece of art has ascended my life while additionally saved me from the toxicity and disturbances I received from other games such as Counter Strike: Global Offensive. Please if you hate yourself, playing this game will change you. You will become so positive and optimistic that even your parents won't recognize you.. It's exactly what you see, two stages alternating where you can jump and or slash away at things. You either want this or don't so if it looks like something you want to play go for it, and if it doesn't then don't blame the game because you should already know what you're buying.. Just a fun little game to pass time.
